**Subject:** RE: ST-12 weekly report

Eva,

Thanks for your question. Temperature measurements for ST012-W36 at the 225 ft depth began on 10 July 2015. The data was incorrectly plotted at the start of the Figure 24 graph (1 December 2014) and will be corrected in the next weekly report.

Stu

It does not appear that temperature data for W36 225' is plotted correctly on the time scale in Figure 24 - when did you start collecting temperature data at this location?
